Brian:

I am not sure I can commit to the meeting since I am working a current site in Houston, TX.

Gary

Do you know the name of the company that took over for Superior? I am expecting to receive the data report from EA in the next couple of weeks and would like to hold an informational meeting at the site in January to present the results of the sampling and the schedule for completing the RI/FS and ROD for the site. Would you be interested in attending the meeting to discuss the removal action at the site?

Thanks
